

Best practices for handling voters who wish to drop off their ballots at the city/town hall during Early Voting

Absentee ballots may be hand delivered to the city/town hall up to the day before the election, including during the period of Early Voting. No person may deliver more than two absentee ballots.

Do not:

- Allow voters to drop off ballots at satellite Early Voting locations.
- Allow voters to drop off ballots to your Early Voting poll workers.

Do:

- Designate an area of the courthouse, separate from where Early Voting is occurring, for voters to drop off their absentee ballots.
- Post signage that clearly shows where to drop off absentee ballots, so voters are in the correct line.
